

# Back to Basics

- Fact: Every child deserves to be important in someone's life.
- Fact: Every parent owes his/her child time, support and understanding.
- Fact: Being a parent is not an easy job.
- Fact: There are techniques to help parents and children to become the best they can be.

The Family Resource Center presents a series specifically designed for parents who have been CPS or court-ordered to take parenting classes.

While there is no recipe for raising successful children, there are key parenting ingredients that will produce strong families. You will learn the traits of a healthy family, techniques of effective communication, methods for setting limits, and appropriate ways to express even strong emotions. You will understand the causes of family stress, and explore ways to instill respect and build character in your children. Make the commitment to improving parent-child relationships at home. Your child will thank you!
